24PCS/9.6CU.FT.

Sleeve type Drinker

25L 1125A Color: ●
42.5(D)x40.2(H)cm
14pcs/ 13 CU.FT.

1. Settle water tank on the bottom tray. Then, rotate the water tank to fasten it on the bottom tray.
2. Push up the two valves on the water tank to stop leaking at the moment when we add water.
3. Fasten the cup on the water tank.
4. Push down the two valves on the water tank to let water flow out.

The Advantages

INFRA-RED GAS HEATER	SPARK IGNITION	SPARK IGNITION WITH SAFTY SWITCH
152	152A	152B
154	154A	154B
155	155A	155B
178		

(152A / 154A / 155A)

(152B / 154B / 155B)

- **Space savings:**
The heater does not require a large area.
- **Energy saving:**
The heater temperature can be adjusted in micro levels to save gas consumption.
- **Maintenance cost saving:**
simple and strong mechanic structure can avoid damage to minimum.
The heater is high quality and offers a long term use.
- **Safety securing:**
Install a safety device with a thermocouple security to protect chicks and avoid gas leaking.
(Item No.152-B.154-B.155-B)
- **Flexible working:**
It will reach the needed temperature in very short time.It is possible to use some heaters separately.
- **Simple operation:**
Automatic electric ignition is quick and convenient.
The heat can be abjusted according to the user's needs.

Fountain & Feeders

Automatic Drinkers

The Automatic Drinker is meant to be used on low pressure system.

280-A

Color: ●

18.5(D)x21(H)cm
12pcs/1.2CU.FT.

279-A

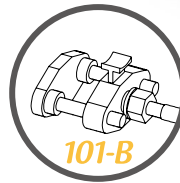

Color: ●

25.5(D)x28(H)cm
12pcs/1.7CU.FT.

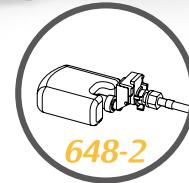

Designed to connect to your water pipe. Comes with a 5ft. flexible hose which includes a connector that clamps onto the pipe and the other end is connected to the float valve in the drinker. Conical top prevents roosting. Five openings allow the birds to stick their heads through to drink.

The system is meant to be used on a low-pressure water supply.

Heavy Duty Plastic Nest Box (with Full-size Window)

277-A

Color: ●

59(L)x40(W)x46(H)cm
1pcs/1.5CU.FT.

The sliding plastic bottom tray can help you to remove the accumulated droppings easily.
The sliding partition panels in center keep birds separately on each side.
The plastic material is more durable than woods and won't be affected by the humidity either.
Very easy to clean with a hose or power washer.
The boxes interlock horizontally or vertically and may be stacked to create a wall of boxes.
The fit very tight which prevents dirt, feathers or droppings to collect between the boxes.
